

CURE VIOLENCE - ENDORSED BY THE US CONFERENCE OF MAYORS (2012)

WE CAN CURE VIOLENCE

Ranked #9 NGO in the World by NGO Advisor (2021)

#1 NGO dedicated to reducing violence

Cure Violence approaches violence with the understanding that violence is an epidemic process that can be stopped using the same health strategies employed to fight all other epidemics. The approach is implemented by credible and trained workers — trusted members of the community — to stop the contagion using a four-prong approach.

1. Detect and interrupt violence

Interrupt conflicts before violence erupts

2. Change the behavior of the highest potential transmitters

Identify and treat those at highest risk

3. Change norms

Change social norms to discourage the use of violence

4. Hospital response and follow up

Respond to every shooting to prevent retaliation and treat trauma

The Cure Violence Approach Works

- **EVIDENCE-BASED** -- 8 evaluations, many more studies, replicated in more than 100 communities across 16 countries
- **LARGE REDUCTIONS** -- 40 to 70% in shootings and killings
- **SUSTAINED STREAKS** -- communities have gone to zero shootings and killings for up to 3 years
- **COMPLEMENTARY APPROACH** -- adds to existing police and community approaches
- **BIG RETURN ON INVESTMENT** -- \$33 saved for \$1 invested
- **RAPID & SUSTAINED REDUCTIONS** -- reductions in 1st month and maintained throughout implementation

EVIDENCE-BASED WITH MULTIPLE INDEPENDENT STUDIES

NEW YORK CITY (John Jay)

- 63% reduction in shootings
- Improved trust in police
- Norm change - less violent

TESTIMONIALS

The Economist

"The approach that will come to prominence."

Nicholas Kristof, New York Times

"Support community anti-violence programs, like Cure Violence ... that work with at-risk young people and show excellent success in reducing shootings."

Sanjay Gupta, MD CNN

"Thinking of this epidemic of preventable deaths as an infection that can be diagnosed, treated and perhaps cured, I feel more hopeful than I have been in a long time."

Mayor Bill de Blasio, NYC

"We really deeply support the Cure Violence movement."

Charlie Beck, Chief, Los Angeles PD

"I've seen this work; I'm in the middle of watching this work. I firmly believe in it."
